Re: Valley Health Center and Parking Structure/Milpitas
S.J. Amoroso Job #700

Dear Tom,

S J Amoroso Construction would like to extend our appreciation to the Farrell team for all your hard work and commitment on the Valley Health Center and Parking Structure/Milpitas.

There was high ground water and difficult soil conditions and the use of the Geopier® Rammed Aggregate Pier (RAP) construction for the parking structure provided a great foundation solution for the project team. The RAP solution provided a significant cost savings and accelerated the construction schedule compared to piles.

Farrell's crew was attentive and quick! The site was left clean and made it easy to start construction of the parking structure. In addition, the Geopiers had low-noise vibrations, which made it neighbor-friendly and addressed environmental concerns.

We will be looking for future opportunities using your services and will always recommend Geopier as a foundation solution on our projects.

We look forward to working with the Farrell team on future projects.

Respectfully
S.J. Amoroso Construction Co., Inc

Jim Hunter
Project Manager
